## Group Project Fall 2021

### Assignment 1: Project Proposal

**Weight: 5%**

#### Description:

In your newly formed groups, brainstorm project ideas around the design theme of Safety on Campus. Feel free to use any method or process that works for you. Examples include brainstorming session, HMW's, JTBD, 5 Whys, or alternative processes

#### Requirements:

Select the idea which you feel has the most promise to be developed as your project. Groups also have the option of including two alternative ideas in an appendix section, described in 1 or 2 sentences.

In a report of approximately 250 – 500 words please include the following:

#### Cover Page:

- Your group name
- The names of all group members
- A working project title

#### Report:

- The possible problems that you are interested in solving
- The users, situations, or tasks for which your idea is intended
- Possible user needs or JTBD that you wish to address
- A description of a possible solution
- What is new or valuable about your project and/or your solution

**Due Date:**

Due dates will be posted on Avenue

**Submission:**

Via Avenue

**Grading**

Assignments will be assessed on the following criteria:

- Timely submission
- Answering all the sections in the report
- The overall quality and submission of your work
- The quality and originality of your proposal
